Verse 1:

```

      E                      A
Whenever I chance to meet, some old friends on the street
      B7                      E
They wonder how does a man get to be this way
      E                      A
I've always got a smiling face, anytime and any place
      B7                      E
And every time they ask me why I just smile and say

And the answer is in this song that I always sing

```
