Verse 1:

Just one more moment, that's all that's needed
Like wounded soldiers in need of healing
Time to be honest, this time I'm pleading
Please don't dwell on it, cause I didn't mean it

Pre Chorus:

I can't believe I said I'd lay our love on the ground
But it doesn't matter cause I've made it up, forgive me now
Every day I spend away my souls inside out
Gotta be some way that I can make it up to you now, somehow
(No chord)
By now you'd know that

Chorus:

I'd come for you
No one but you, yes I'd come for you, but only if you told me to
And I'd fight for you, I'd lie, its true
Give my life for you
You know I'd always come for you
